Retention & LTV: Churn & Cohort Retention Analysis, LTV & Incremental Revenue Measurement, Expansion & Upsell Journeys, Event Tracking Taxonomy, Retention Reporting to Leadership.

PROFESSIONAL EXPERIENCE

Entain
CRM & Lifecycle Marketing Manager | Aug 2022 – Present

Lead CRM monetization and customer lifecycle strategy across European markets, combining hands-on campaign execution with data-driven experimentation in a high-volume environment.

Own the end-to-end execution of revenue-generating lifecycle campaigns across acquisition, conversion, retention, and win-back stages.

Build and scale structured A/B testing frameworks across copy, cadence, offers, and channels, using performance data to continuously lift customer LTV.

Design and execute multi-channel automated workflows (Push, In-App, Email, SMS) based on user activity, behavioral scoring, and RFM segmentation.

Partner closely with Analytics, Product, and Tech teams to optimize campaign deliverability, troubleshoot data integrations, and maintain technical soundness across high-volume sends.

Track core commercial and retention metrics, turning campaign insights into actionable iterations for CRM and monetization roadmaps.

Executed multi-channel CRM campaigns for global player cohorts, focusing on user activation, deposit frequency, and churn prevention.

Analyzed behavioral datasets to map user touchpoints and identify opportunities to improve conversion and repeat engagement.

Managed day-to-day operational setup, audience segment definitions, and quality assurance for high-volume communications.

CRM Ops Lead Europe | Oct 2021 – Aug 2022

Orchestrated real-time CRM operations across multiple European labels, consistently exceeding SLA and resolution targets.

Monitored response times, CSAT, and operational KPIs, translating strategic objectives into efficient, high-quality processes.

Coordinated cross-functional stakeholders across time zones during high-volume periods to ensure service excellence and operational continuity.

TOC-TOC Mobile App
Marketing & CRM Manager | Sept 2019 – Oct 2021

Led end-to-end mobile CRM, monetization, and growth strategies for a gamified family health and fitness tracking app powered by exercise milestones, leaderboards, and rewards.

Scaled user revenue by testing new monetization tactics, refining in-app flows, and leveraging behavioral data to drive growth.

Designed and automated mobile lifecycle journeys (Push, In-App Messages, Email) to turn daily exercise tracking into long-term habits and boost DAU.

Structured contextual paywall prompts, upsells, and subscription renewals around key gamification moments (milestone completions and leaderboard peaks) utilizing RevenueCat.

Partnered with product and analytics to define event tracking taxonomy and segment cohorts based on in-app engagement.

Deployed continuous A/B and multivariate tests on messaging cadence, value propositions, and incentive schemes to lift trial-to-paid conversion and curb churn.
